Please practice getting jackets on/off
Be sure your child’s name is on their jacket

Trick-or-Treat on campus
Friday, Oct 29th

Everyone loved learning all about nocturnal animals. The children worked really hard each day on the pages to create their own “Whoooo’s Awake at Night?” book. The book was a great way to work on handwriting, beginning sounds, shapes, and fine motor skills. We were able to see and sketch real bat and spider specimens. We watercolor painted to create our own clothespin bats.
