Please be sure your child has extra clothes at school.

We will begin a two week unit on Art

We had a great week learning all about seeds and plants. Everyone drew a sunflower and labeled it with what it needs to grow. We used magnifying glasses to observe several different types of plants, vegetables and flower seeds. We practiced sequencing skills by placing the stages of the life cycle of a plant in correct order. The highlight of our week was planting our seeds. We are excited to observe the changes they will make!
We planted our seeds this week and we are excited to watch them grow and change into plants.

The annual egg drop event did not disappoint. It was so awesome to see all the different ideas and designs our friends made to protect their eggs. The Ducks and Bunnies loved sharing this fun with their parents.
