Our "Pet" theme was popular with all our friends. Everyone enjoyed seeing pictures of family pets for our classroom display. Our friends loved working in the pet shop and also the vet clinic. The children loved creating different pet habitats using blocks. We categorized pets by size and by pet family, and matched pets to their habitats. Local vet, Dr. Ware Sullivan, visited with our friends about pet care and safety. Some sweet puppies and a therapy dog also stopped by our school. It was a fun week “fur” sure!
