## Weekly Recap

This year has flown by! We can't believe there is only one week of school left. We are so proud of all our 4K friends, and we can't wait to see what awesome things they do next year! This week we learned about the wind and how it makes things move. We made bird kites and played with pinwheels.

We are excited to see our 5k friends graduate next week. Please check your email for a permission slip.

We hope everyone has a great summer!!
