October News!

Week of:

October
23rd-27th

Weekly Recap

We had a fun week at Willie Price learning about shadows. The beautiful weather allowed us lots of outside time to draw and act out different shadow games. We were able to draw different shapes and measure shadows using unifix cubes and a yard stick. Next week we're celebrating Halloween. We're also going to do a fun experiment and STEAM activity involving pumpkins. We will also explore how candy corn changes in different liquids.

Upcoming Units

Halloween
Fall Rodeo
