Willie Price friends are the best! Our 4K friends loved learning about the other friends in our class. We created a friendship quilt that is on display in our cafeteria hallway. We also practiced our handwriting and letter recognition using our classmates' names. We can’t wait to share pictures of all our fun. Next week we will learn about our community helpers and the important role that they play. Look for the sign-up genius to volunteer to teach us about your career. We also welcome grandparents and other family members that wish to share.
