The 4K friends were so excited to finally celebrate the 100th day of school. We had so much fun seeing all our friends dressed up and participating in our 100 exercise activity. This week, we explored different types of transportation. We even saw a bike that’s almost 100 years old. We had so much fun building ramps and measuring how far our cars traveled.

Next week, we will study our dinosaur unit. If you have anything you can share with our class to add to our unit, please contact your child’s teacher. Some example are books, toys, replicas, or pictures.

• January 31st - Scholastic Orders due
• February 9th - Valentines due to classroom.
• February 14th - Valentine’s Day Party at 10:00
Week In Review!

4K loved learning about bike safety and seeing the antique bike that Mr. Denny brought.
